**PUBLIC NOTICE**

Notice is hereby given that by a resolution dated February 16, 2026, the Board has proposed the variation in the utilization of proceeds of the Initial Public Offering ("IPO Proceeds") and for extending the estimated timeline by one year (i.e. up to March 2028) in terms of the Prospectus dated January 21, 2026 issued in connection with the Initial public offering of 61,30,000 equity shares at an issue price of Rs. 124/- (Rupees One Hundred and Twenty-four Only) per equity share aggregating to Rs. 7,601.20 Lakhs.

Subsequent to the aforesaid approval of the Board, further notice is hereby given seeking approval of the members of the Company through a special resolution, to be passed by postal ballot.

The details regarding such variations are as follows:

Sr. No.	Original objects of the IPO as stated in the Prospectus	Total amount raised as per Prospectus	Amount utilized as on December 31, 2025	Amount unutilized as on December 31, 2025	Proposed Variation	Revised amount after variation	Revised unutilized amount post variation

The members may note that the overall objects and the amount stated in the Prospectus dated January 21, 2026, remain unchanged.

2. Particulars of the proposed variation:  
The details of the same are mentioned in the above table.

3. Reason/justification for the variation:  
In the evolving business priorities and operational requirements and an assessment, the Board of Directors felt it appropriate that the allocation towards leadership hiring needs to be enhanced in order to strengthen the Company's managerial and operational capabilities across the Group. Accordingly, it is proposed to increase the allocation towards leadership hiring, which shall be funded through a corresponding reduction in the amount originally earmarked for capital expenditure and also extend the estimated timeline for utilization of IPO proceeds by one year (i.e. up to March 2028). Further, there has been a change in the proposed allocation for leadership hiring at the individual entity level within the Group. Consequently, the Company is proposing this variation in the objects of the issue.

4. Effect of the proposed variation/alteration on the financial position of the Company:  
The proposed variation will ease the additional burden on finance plans and internal accruals of the Company. This strategic adjustment underscores the Company's commitment to effective financial utilization as it navigates its evolving operational landscape.

5. Major Risk factors pertaining to the new objects:  
The management proposes to vary the terms of utilization of the unutilized IPO proceeds by allocating these funds towards leadership hiring, rather than the originally intended capital expenditure. This reallocation is aimed at strengthening the Company's managerial and operational capabilities across the Group, thereby supporting its long-term growth strategy. Such a shift in resource allocation is expected to enhance the organization's leadership bandwidth and improve execution efficiency. However, it is important to note that, given potential unforeseen economic, market, business or other factors beyond the control of the management, there can be an assurance that the increased allocation towards leadership hiring will directly result in enhanced profitability or business growth and expansion for the Company.

6. Names of directors who voted against the proposed variation/alteration:  
Name of the director of the Company who has voted against the proposed variation/alteration.
